

## Declaration of Performance

Traffic Management Products Ltd  
Unit 4, Nightingale Road, Horsham, West Sussex, RH12 2NW

DoP No: 002-010

Revision A

**BS EN 12767:2007**

**100 NE 4**

When tested in accordance with BS EN 12767:2007 the TMP Ltd Munro Bollard, root, socket, LockSafe® and surface mounted will have an expected performance as follows:

Upon impact by the test vehicle at 100 kph, the bollard will yield & bend so the bollard goes from a vertical position to a horizontal position allowing the test vehicle to drive over said bollard. Once the vehicle has passed over, the bollard will return to the vertical position. Negligible damage will be seen on the reflective material after impact.

**Result – Pass**
