Flecta

Retro-reflective self-righting bollard
Perfect for traffic and commercial applications

PassiveSAFE[®]

Rebounds on impact and fully compliant
to BS EN 12767:2019

A cost-effective versatile traffic bollard with zero maintenance

The Flecta was the first RSRBs invented by TMP Solutions in the early 2000s, revolutionary and innovative for its time, this RSRB is able to deliver clear driver communication day and night. The design is still working strong today, fully compliant for use on the UK highway. The standard TMP Flecta comes complete with a D610 Keep Left roundel on the front, but there are many other variants are available.

- 300mm Sign face
- Easy to install
- Single sided
- 100% Recyclable shell
- BS 8442:2015 compliant
- All reflective material meets BS 8408:2005
- BS EN 12767:2019 Passively Safe
- 12 Year 3M backed delamination warranty

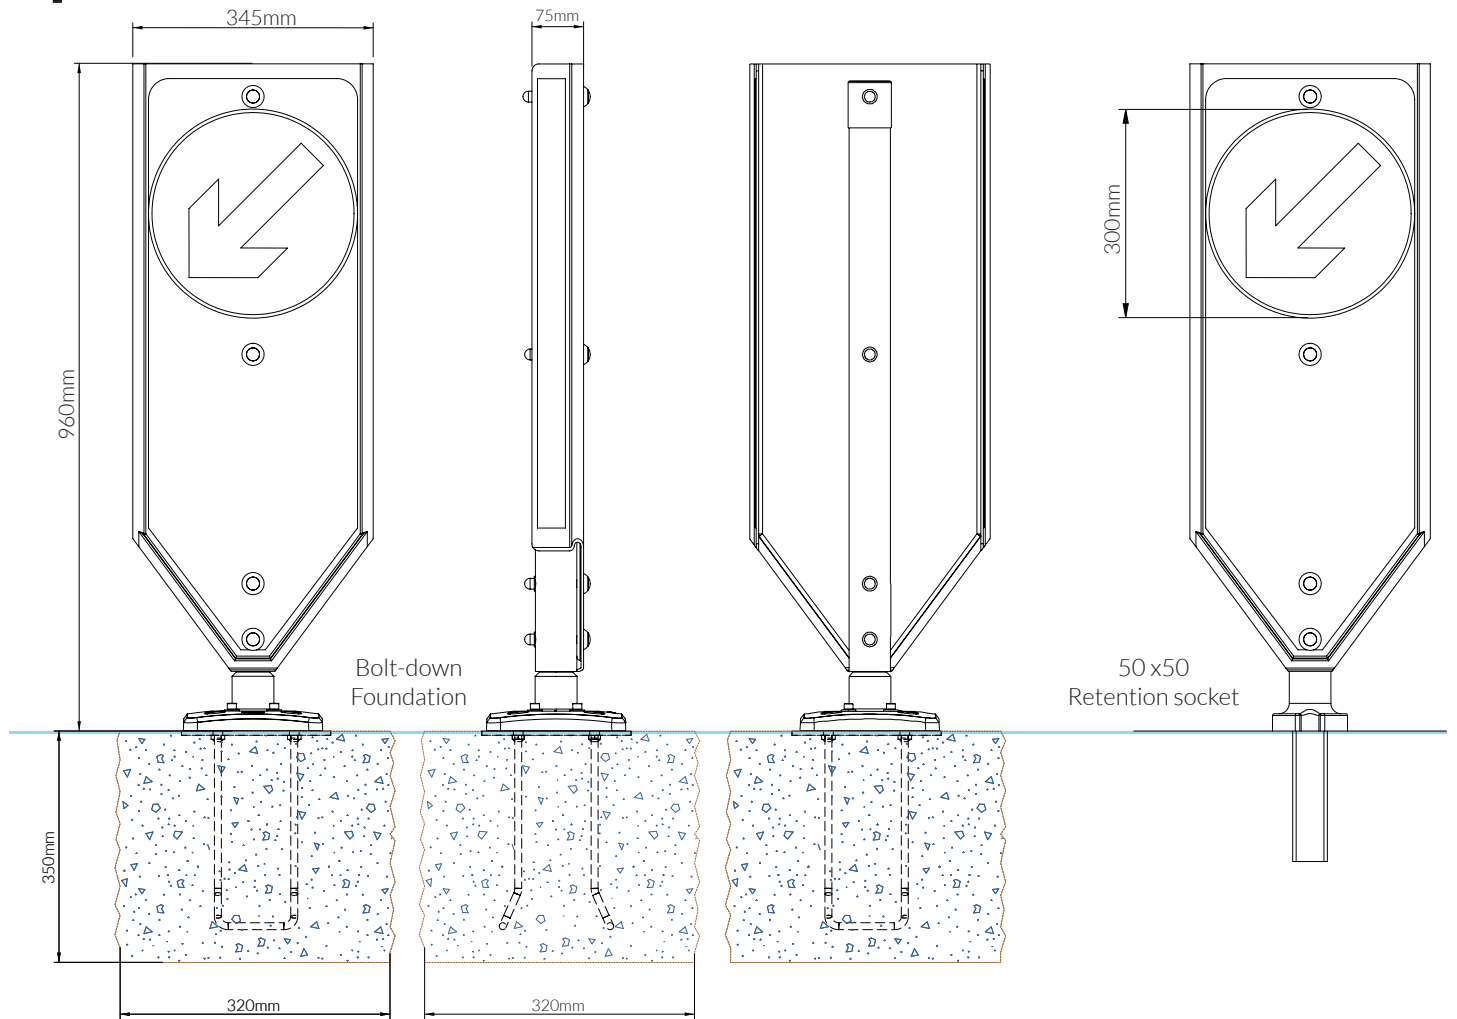

All TMP RSRBs are passively safe

The TMP Flecta is a cost-effective bollard due to its durable HDPE rotationally moulded polypropylene and unique base that self-rights the bollard. The bollard will stand tall when impacted time after time from wayward traffic, remaining clearly visible giving the next driver instruction. The Flecta is covered with retroreflective material that utilises vehicle headlights to illuminate it meaning there's no need for costly electrical installation.

BS EN 12767:2019 compliant and passively safe, the Flecta bollard has a 12 year delamination warranty and a wide choice of installation options making it one of the most versatile and affordable traffic bollards on the market today.

Specifications

Material	Vacuum formed polypropylene
Colour	Grey as standard
Protection	Recessed reflective panels & anti-vandal fixings
Corrosive Resistance	SP1/SP2
Installation Options	Foundation cage, retention socket or base light conversion
Reflective Material	3M Diamond Grade DG3 Series 4000 Fully compliant with Class R3B, EN12899-1:2007
Sign Face	300mm (single sided)
Front Reflector	300mm wide x 825mm high
Side Reflector	40mm wide x 645mm high
BS8442:2015	Fully compliant
BS EN 12767:2007	100:NE:4
BS EN 12767:2019	100-NE-A-R-NS-MD-0 70-NE-A-R-NS-MD-0 50-NE-A-R-NS-MD-0
